Press Release - Global Release
FOR IMMEDIATE RELEASE

SOLBERG® Achieves ULC Category 3 Product Certification on Foam Concentrates ARCTIC 3% and 6% AFFF Are Underwriters Laboratories of Canada, Inc. (ULC) Category 3 Listed

Green Bay, Wisconsin - The Solberg Company, the world's foremost innovator of firefighting foam concentrates and systems hardware, announced today the company has achieved CAN/ULC S560; *Standard for Category 3 Foam Liquid Concentrates* Certification on the company's ARCTIC™ 3% and ARCTIC 6% MIL-SPEC AFFF foam concentrates.

ARCTIC™ foam concentrates from SOLBERG are PFOS-free synthetic firefighting foam concentrates used to effectively extinguish Class B fuel fires. ARCTIC foam concentrates provide rapid extinguishment and excellent burn back resistance and can be used in fresh, salt or brackish water.

In May 2012, ARCTIC AFFF and ATC™ foam product lines became C₆ fluorochemical based, making Solberg the first foam manufacturer in the Americas to offer commercially available foam concentrates that were compliant to the 2010/2015 U.S. EPA PFOA Product Stewardship Program.

In addition to [ULC Category 3 Certification](#), ARCTIC 3% and 6% MIL-SPEC AFFF concentrates are Underwriters Laboratories, Inc. listed in accordance with UL 162 (Standard for Safety for Foam Equipment and Liquid Concentrates), listed in accordance with ULC S564 (Standard for Categories 1 and 2 Foam Liquid Concentrates), and Qualified Products List (QPL) to U.S. Military Specification MIL-F-24385F.

“After months of development work and hundreds of fire tests we have come up with product formulations that are superior in every aspect of performance. Further, they have the added value of being multi-agency certified including MIL-SPEC and ULC Category 3, thus serving the aviation industry in both Canada and the United States with a single formulation for each type concentrate” said Mark Siem, Research Chemist.

ARCTIC 3% and 6% MIL-SPEC AFFF is also certified for use in numerous commercial land and offshore applications where the use of MIL-SPEC certified foam concentrate is required these include NFPA 403: Standard for Aircraft Rescue and Fire-Fighting Services at Airports; NFPA 409: Standard on Aircraft Hangars; NFPA 412: Standard for Evaluating Aircraft Rescue and Fire-Fighting Foam Fire equipment; NFPA 414: Standard for Aircraft Rescue and Fire-Fighting Vehicles and NFPA 418: Standard for Heliports.

ARCTIC concentrates are extremely effective firefighting foams for flame knockdown, fire control, extinguishment, and burn-back resistance. Control, extinguishing time, and burn-back resistance are paramount to the safety of firefighters everywhere. ARCTIC foam concentrates have shown excellent performance in each of these categories.

ARCTIC AFFF foam concentrates are intended for use on Class B hydrocarbon fuel fires and are available in 1%, 3% and 6% concentrations. ARCTIC ATC (AR-AFFF) foam concentrates are intended for use on Class B hydrocarbon and polar solvent fuel fires. Concentrates available include 1x3%, 3x3%, and 3x6% formulations. All ARCTIC foam concentrates can be used to prevent re-ignition of a liquid spill and control hazardous odors, and will improve extinguishment in Class A deep-seated fires.

Solberg, the firefighting foam products division of Amerex Corporation is based in Green Bay, Wisconsin with operations in Bergen, Norway and Sydney, Australia. The company has been involved with the manufacture of firefighting foams since the mid-1970s. Solberg's unique technology and foam systems hardware is preferred by customers in the aerospace, aviation, chemical, defense, energy, fire services, marine, mining, oil and gas, petrochemical, pharmaceutical, pipeline, solvent & coatings and utilities industries.

###

About Solberg

Solberg is an Amerex Corporation company. The company is a global one-stop resource for firefighting foam concentrates and custom-designed foam suppression systems hardware and accessories. Solberg offers environmentally sustainable fluorosurfactant and fluoropolymer-free foam concentrate products, an innovation in Class B firefighting foam and traditional firefighting foam concentrates. Solberg's people and processes are committed to quality, service and safety along with environmental responsibility. This philosophy enables the company to flourish while delivering innovations and value. More information can be found at: www.solbergfoam.com
